

CAN BIOFUELS DRIVE OUR FUTURE?

Monday, 22 June 2020 | 10:30 - 12:00 CEST
EUSEW 2020 Energy Day: Panel Webinar (Zoom)

In March 2020, the European Commission committed to enshrining the 2050 climate-neutrality objective—set out in the European Green Deal—into EU law. At the same time, the covid-19 pandemic tipped the European Union into a volatile new phase, with a looming world-wide economic recession stirring geopolitical tensions. A critical appraisal of our dependence on imported fossil fuels is, therefore, timelier than ever. In this webinar, we take a critical look at the potential of biofuels to contribute to achieving climate neutrality through the substitution of fossil fuels in the transport sector.

This Panel Webinar is organized by the Horizon2020 project “Moving Towards Adaptive Governance in Complexity: Informing Nexus Security” (MAGIC) in the context of the EU Sustainable Energy Week ([EUSEW](#)).

SPEAKERS

- Mario Giampietro (Universitat Autònoma de Barcelona, Coordinator MAGIC)
- Nico Polman (Wagenigen Economic Research, representing SIM4NEXUS)

PANELISTS

- Zoltan Rakoncay (European Commission, DG-RTD.C.3 Climate & Planetary Boundaries)
- Lotte Asveld (Delft University of Technology)
- Zsolt Lengyel (Chairman, Institute of European Energy and Climate Policy)

MODERATOR

- Maddalena Ripa (Universitat Autònoma de Barcelona, MAGIC)

REGISTRATION

- Event free of charge
- Registration required, see our website: <https://magic-nexus.eu/events/panel-webinar-can-biofuels-drive-our-future> or click [here](#).

Suggestions for panel discussion points can be sent to mario.giampietro@uab.cat or posted in our MAGIC forum: <https://magic-nexus.eu/forums/webinars>
